

**WIND AND SNOWSTORM.**

States Being Visited by the First Storm in Years.  
April 25.—The storm that early Sunday morning continued out today. The down pour from rain to snow about midday and the plains of eastern Colorado covered with from 6 to 8 inches of heavy wet snow.

Graph wires north, west and of the city were generally rendered unserviceable.

Lake City was entirely isolated. The storm extended from the Panhandle of Texas to Central Wyoming.

Our stock on the ranges is in good condition, and as the temperature was low, there will be little loss. The benefit to grasses on the range is incalculable. Little damage has been reported to railroads.

Albuquerque, N. M., April 25.—New Mexico and Arizona have been drenched by a rain and snow storm which lasted six hours. Phoenix reports the heaviest rainfall of the winter. The streams in central Arizona are far out of their banks. The plains of western New Mexico form a sea and all traffic from the coast on the Santa Fe is interrupted. From 5 to 10 feet of snow lies in the mountains, and is melting rapidly and streams are rising. The cold storm will be fatal to calves and lambs, as well as to many old cattle, which have been thinned by a severe winter.
